## Agenda

<b>Title</b>	<b>Description</b>	<b>Time</b>
<i>Welcome speech</i>	-	16:00 - 16:15
<i>Presentation “What is the new Tomsk International Science Program and how can it improve your and our future”</i>  <i>Prof. Herman Kingma</i>	<i>Professor Kingma, head of the new Tomsk International Science Program, will explain why this program is a revolution in education in Russia, based on the success of a similar program in the Netherlands, which is currently considered as the best bachelor program in natural sciences. He will explain how this innovative approach leads to much more effective and successful personal development and how transdisciplinary education and research allows to address the real challenges in our world much better than traditional passive monodisciplinary education and research.</i>	16:15 - 17:15
<i>Presentation of student projects</i>	<i>Students of Tomsk International Science Honor’s Program will give short comprehensive presentations of their projects, which they have developed in this program. Each presentation is followed by a Question and Answer section.</i>	17:15 - 17:40
<i>Awarding Ceremony</i>	<i>Awarding ceremony for graduates of Tomsk International Science Honor’s Program.</i>	17:40 - 18:15
<i>Reception</i>	<i>Tea, coffee, snacks. All participants will have an opportunity to discuss the presentations, ask questions about Tomsk International Science Program and congratulate the graduates.</i>	18:15 - 19:00
