»I came to summer school because of lectures and professors, who did a great job. Also the socializing part of the summer school was well-organized; there were many events and sport activities. The cultural and national diversity of students presented that extra value. I met a lot of new people, which will come in useful when I will be making future business connections. I am very happy with this excellent experience.«

Emre, Turkey

»During summer school, I got acquainted with several different cultures and made a lot of friends. Chinese customs are completely different from the ones in the west. This summer school was a great experience in my life!«

Xinyi, China

»I did not like summer school, I loved it. It has taught us how to work in groups with different cultures. It has organized different events and trips to keep it interesting on the way of completing those classes. However, the most important part was that everyone treated us with a warm attitude.«

Emira, Kosovo

»Studying in a very small but beautiful city called Ljubljana, having friends from all over the world and the best summer of my life. Cliché but true: a life changing experience.«

Iris, Netherlands

»For student like me who has stayed in one country for a long time, the Summer school was an absolute eye-opener. Making friends has never been so easy with so much fun and culture. Activities, trips and even studies further added to the strength and consistency of the program.«

Peter, Australia
